GENERAL RULES

20. Standby Service - Continued

20.2 Interconnection and Operation - Continued

20.2.1 – Continued

(B)(8)(a) – Continued

- (6) The communications service for the account associated with the generating facility's export and for each Standby Service account must be provided and maintained at Customer expense pursuant to General Rule 6.5, and must be operational before the Customer may take service under General Rule 20.2.1(B)(8).

(b) Interconnection:

The interconnection will be subject to the Interconnection Charges specified in General Rule 20.2.1(A) and must meet the Interconnection Requirements specified in other sections of General Rule 20.2.1(B). In addition, the interconnection must be technically and economically practicable, and the connection and operation of such facility shall not jeopardize the safety or operation of the Company's system, facilities or other Customers.

(c) Accounts Supplied by the Generating Facility's Output:

- (1) Each account must be eligible for billing under Standby Service rates and must be billed under the Standby Service rate applicable to that individual account.
- (2) The Customer's accounts must be either all Full Service or all Retail Access.
- (3) If the Customer is a Retail Access Customer, all supply in excess of that supplied by the Customer's private generating facility must be supplied by a single ESCO unless the Customer elects to be a Direct Customer pursuant to General Rule 19.
- (4) No account served under General Rule 20.2.1(B)(8) may be served under the PASNY Rate Schedule, the EDDS Rate Schedule, or any economic development program specified in General Rule 11.
- (5) None of the accounts may receive Consolidated Billing (described in General Rule 19.3.6).
