 COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION
 INITIAL EFFECTIVE DATE: 12/01/11

LEAF: 272.19
 REVISION: 1
 SUPERSEDING REVISION: 0

SERVICE CLASSIFICATION NO. 14 (Cont'd)

STANDBY SERVICE (Cont'd)

APPLICATION FOR ELECTRIC STANDBY SERVICE (Cont'd)

3. Service Options

- _____ Applicant elects to take standby service under S. C. No. 14
- _____ Applicant's OSG qualifies as a photovoltaic or wind generator less than 15 kVa and elects standby service with net metering under Special Provision 14.7 of the Tariff.
- _____ Applicant would otherwise qualify for non-demand metered service under S. C. Nos. 1, 2, 4 or 6 and elects to be billed pursuant to the rates, terms and conditions of their Parent Service Classification under Special Provision 14.4 of the Tariff.
- _____ Applicant has entered into a separately negotiated contract according to Special Provision 14.8 of the Tariff.
- _____ Applicant would otherwise qualify for service under S. C. No. 2 demand rates, has a Contract Demand less than 50 kW and declines to take service under the rates of S. C. No. 14. Applicant will be billed under the applicable rates of S. C. No. 2 pursuant to Special Provision 14.3 of the Tariff.
- _____ Applicant declines service under S. C. No. 14 and will electrically isolate their facility from the Company's electric system in accordance with the Tariff.
- _____ Standby service is not applicable to the Applicant's OSG for the following reason (do not complete Sections 4 through 7, below):
- _____ Applicant's OSG has a total nameplate rating of 15% or less of the Applicant's maximum potential demand as defined in the Tariff.
- _____ Applicant's OSG qualifies as a photovoltaic generating system of 10 kW or less or as a farm waste generating system of 400 kW or less as defined in the Tariff.
- _____ Applicant's OSG is defined as an Emergency Generator according to the Tariff.
