The following charges will be assessed for each service that was discontinued at the meter or at the outside service valve:

- 20.1.3 When the customer also receives electric service at the same location from the Company and the electric service is being re-established at the electric meter, the larger of the two electric and gas charges will be the applicable charge to cover the electric and gas re-establishment if both services are re-established at the same time.
- 20.1.4 After agreement with the customer on the date, time and charge for service re-establishment, the Company will endeavor to re-establish service as soon as possible.
