---

**Prepaid Calling Card Service-** A card issued by the Company, containing an Authorization Code which identifies a specific Prepaid Account of Telecom Units, which enables calls to be processed, account activity to be logged, and balances to be maintained, on a prepayment basis. A Calling Card Call which is dialed by the Customer and may or may not require intervention by an attended operator position to complete.

**Prepaid Pin-less Calling Service -** Company bundles the customer's phone number to an Authorization Code which identifies a specific Prepaid Pin-less Calling Service Account of Telecom Units, which enables calls to be processed, account activity to be logged, and balances to be maintained, on a prepayment basis. By using the Company local access or toll-free number, Customer is prompted by an automated voice response system to direct enter the terminating telephone number without inputting an Authorization Code.

**Resp. Org -** Responsible Organization or entity identified by a Toll-Free service Customer that manages and administers records in the toll free number database and management system.

**Telecom Unit -** A measurement of telecommunications service equivalent to one minute of usage between any two points within the State of New York.

**Telecommunications -** The transmission of voice communications or, subject to the transmission capabilities of the services, the transmission of data, facsimile, signaling, metering, or other similar communications.

**Underlying Carrier -** The telecommunications carrier whose network facilities provide the technical capability and capacity necessary for the transmission and reception of Customer telecommunications traffic.
