GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER Q –STANDBY RATE PILOT - Continued

D. Metering

Customers under this Rider must also comply with the following metering requirements:

1. the output of the generating facility and/or the charging usage and discharge output of the Electric Energy Storage facility, as applicable, must be separately metered using an Output Meter (as defined in General Rule 2) that the Customer arranges to be furnished and installed at Customer expense, and
2. the Customer, at its expense, must provide and maintain the communications service for the Output Meter.

The Company will assess the charge specified in General Rule 16.4 if the Customer's communications equipment is not operational and may terminate the service of the Customer under this Rider if there are two or more instances of Customer caused failed communications service in any calendar year.

E. Applicable Networks and Time Periods

The rates and applicable time periods under Option B and the measurement hours under Option C will vary based on the Customer's location and are based on event call windows for the Company's Commercial System Relief Program ("CSRP"). A separate set of rates under Option B is available for Customers in a CSRP network who are also in a Distribution Load Relief Program ("DLRP") Tier 2 network. The CSRP event call windows and DLRP Tier 2 networks will be available on the Company's website.
