**GENERAL INFORMATION**

10. CHARGES FOR SPECIAL SERVICE (Cont'd.)

10.3 CHARGES FOR OTHER SERVICES

Charges are made for all other special services rendered, which charges are composed of Company costs of labor, direct supervision, insurance, transportation, applicable overheads on the above, plus repair parts at current list prices.

10.4 COMMUNITY CHOICE AGGREGATION (CCA) PROGRAM

A CCA Program allows municipalities (villages, towns and cities) to aggregate the usage of eligible CCA customers (residential and small non-residential customers) within a defined jurisdiction in order to secure an alternative energy supply contract on a community-wide basis.

- (1) In accordance with Orders issued in Case 14-M-0224, before requesting customer data from the utility for participation in a CCA Program, the municipality or their designee (CCA Administrator or ESCO) must:
  - (a) sign a data security agreement acceptable to the Company, and
  - (b) have an approved implementation and data protection plan and certification of local authorization approved by the New York State Public Service Commission.
- (2) Upon fulfilling the requirements in 10.4(1) the Company will provide the following information to the municipality or their designee in accordance with the terms and fee(s) stated herein.
  - (a) Aggregated customer data includes the number of customers by service class and volumetric gas consumption by month for the past 12 months by service class. This information will be provided to the municipality or CCA Administrator within twenty days of a request. The Company will notify the requesting party if data for any service class contains so few customers, or in which one customer makes up a large part to the load, such that the aggregated information does not pass the relevant aggregation privacy standard.
