

**P.S.C. NO. 3 ELECTRICITY****ORANGE AND ROCKLAND UTILITIES, INC.**

INITIAL EFFECTIVE DATE: December 1, 2018

SUPERSEDING REVISION: 2

Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 9/12/2018.

LEAF: 180.3

REVISION: 3

**GENERAL INFORMATION****13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N (Continued)****NET METERING AND VALUE STACK TARIFF FOR CUSTOMER-GENERATORS****APPLICABILITY (Continued)****(B) Phase One Net Metering ("Phase One NEM") (Continued)**

- (2) Mass Market Customers with the electric generating equipment listed in paragraphs (A) – (I) of the Applicability Section of this Rider that is placed in service after March 9, 2017, but no later than January 1, 2020 (unless the Commission issues an Order directing an earlier end-date); or
- (3) Wind electric generating equipment listed in paragraphs (B), (C), and (F) of the Applicability Section of this Rider that is not used to offset consumption at another site and is interconnected after the 3.1 MW cap under PSL §66-I is reached and before January 1, 2020 (unless the Commission issues an Order directing an earlier end-date).

In the event that a single project causes an exceedance of the 23 MW threshold for CDG Host Accounts, the project will qualify for Phase One NEM; however, the MW above the 23 MW threshold will be counted as MW under the Value Stack Tariff.

**(C) Value Stack Tariff**

The Value Stack Tariff will be applicable to customers not eligible for Grandfathered Net Metering or Phase One NEM, provided; however, that customers served under Grandfathered Net Metering or Phase One NEM customers will be provided a one-time, irrevocable opt-in to the Value Stack Tariff.

If there is a change in account name for the premises on which the generator is located (i.e., an RNM Host Account, a CDG Host Account, or the account of a customer with on-site generation that does not participate in RNM or CDG), the successor customer will be eligible for service under this Rider, subject to the Rider N Billing Sections provisions for charges and credits applicable to its predecessor, for the remaining term of service. If there is a customer-initiated change in generating equipment that requires a new standardized interconnection request to be filled with the Company (e.g., due to an increase in the nameplate rating or replacement of the generating facility) or a change in the type of net metering (e.g., from CDG to RNM or from RNM to a single net metered account), the account will be subject to the applicable terms and conditions of service in effect at the time of such change.

Service under this Rider is not available to customers taking service under Rider C.
