

Effective Date: 01/01/2017

PSC No: 120 - Electricity
New York State Electric & Gas Corporation
Initial Effective Date: December 1, 2016
Issued in compliance with Order in Case 14-M-0101, dated May 19, 2016.

Leaf No. 294.14
Revision: 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 11 (Continued)

(g) Standby OffsetEligibility (Cont'd)

1. Standby Generation Account (Cont'd)
 - g. Customers that have a Standby Generation Account may take service under the Company's Buy Back service, Service Classification No. 10, if the export of the generating facility exceeds the aggregate registered kWh usage on the Standby Generation Accounts and the Standby Supplied Accounts.
2. Standby Supplied Accounts
 - a. The Standby Supplied Account must have the same name on the account as the Standby Generation Account.
 - b. The generating facility, the Standby Generation Account, and Standby Supplied Accounts must all be located within a single "premises," defined, for purposes of this provision only, as "a parcel of land; or more than one building and/or parcel of land proximate to each other if there is common use, whether or not such buildings or parcels are separated by public or private roads." All of the Standby Supplied Accounts must be connected to the Company's distribution system. All standby accounts must be within the same load zone as determined by the Locational Based Market Price. The accounts of a customer whose buildings or parcels of land are not physically interconnected may meet the definition of a single "premises" upon the customer's demonstration of proximity and common Company facilities to the Company.
 - c. Each Standby Supplied Account will be billed with the applicable standby service rates in this service class.
 - d. Each Standby Supplied Account must have interval metering and meet the interval metering and telecommunication requirements of this service class before they will be eligible for the offset provision. The meter and telecommunications for each Standby Supplied Account must be provided and maintained at the customer's expense, and must be operational before the customer may take service under this provision.
 - e. Each Standby Supplied Account is eligible for the supply options as described in this service class.
