

PSC NO: 15 ELECTRICITY

LEAF: 163.5.15

COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION

REVISION: 9

INITIAL EFFECTIVE DATE: 04/01/17

SUPERSEDING REVISION: 8

Issued in Compliance with Order in Case 15-E-0751 et al. dated March 9, 2017**38. NET METERING FOR CUSTOMER GENERATORS** (Cont'd)**B. Non-Residential Solar Electric, Micro-Hydroelectric, Fuel Cell or Farm Waste Generation** (Cont'd)**Billing:** (Cont'd)

2. For demand metered customers not subject to hourly pricing provisions (HPP), as specified in the customer's applicable Service Classification, in the event that:
 - (a) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the customer will be billed for the difference at the applicable rates specified in the customer's applicable Service Classification.
 - (b) the amount sold to the Company exceeds the amount purchased from the Company (net sales),
 - (i) for photovoltaic or micro-hydroelectric generators the excess on-site production shall be converted to the equivalent value at the applicable energy delivery and energy supply per kWh rates of the customer's applicable Service Classification and applied as a direct credit to the customer's current total utility bill. To the extent that the value of monthly production credit exceeds all components of the customer's total bill, the remaining credits shall be converted back to their kWh values and carried forward to the succeeding billing period.
 - (ii) for fuel cell or farm waste generators, the excess on-site production shall be converted to the equivalent value at the applicable rate under Service Classification No. 10 and applied as a direct credit to the customer's current total utility bill. To the extent that the value of this production credit exceeds all components of the customer's total bill, the remaining credit shall be carried forward to the succeeding billing period.
 - (c) for photovoltaic or micro-hydroelectric generators, the customer has supplied excess energy to the Company at the end of twelve (12) months from the time the customer contracted for this service, excess kWh supplied to the Company will be carried forward to the succeeding billing period.
 - (d) for farm waste generators, the difference in the billing period that ends directly on or after twelve (12) months from the time the customer contracted for this service ("anniversary date"), represents net sales to the Company, the Company will pay the customer for this difference at the applicable rate under Service Classification No. 10. The customer may make a one-time election to select an alternate anniversary date to be effective for all payments, as applicable.
3. For demand metered customers subject to hourly pricing provisions (HPP), as specified in the customer's applicable Service Classification,
 - (a) an energy delivery charge/credit will be billed for the net usage/generation in the billing period at the applicable energy delivery kWh rates specified in the customer's applicable Service Classification.
 - (b) an energy supply
 - (i) charge/credit will be billed for customer's taking utility supply service. The appropriate charge/credit will be calculated by netting generation against usage in each hour of a billing period and multiplying the net usage/generation by the applicable hourly rate. Summing the charge/credit calculated for each hour will yield the energy supply amount to be billed for the billing period.
