

P.S.C. NO. 3 ELECTRICITY	LEAF:	185
ORANGE AND ROCKLAND UTILITIES, INC.	REVISION:	7
INITIAL EFFECTIVE DATE: April 1, 2017	SUPERSEDING REVISION:	6

Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 3/9/2017.

GENERAL INFORMATION

13. SERVICE CLASSIFICATION RIDERS (Continued)

RIDER N (Continued)

NET METERING FOR CUSTOMER GENERATORS

BILLING (Continued)

(C) (Continued)

At the end of an annual period for farm waste electric generators located at a farm operation or farm wind electric generators that are eligible for DAHP, the customer will receive a monetary credit equal to the supply credit described in Section (C) (1) (b). At the end of an annual period for farm waste electric generators at a farm operation or farm wind electric generators participating in Remote Net Metering, any monetary credit that remains after the crediting of all Satellite Account(s) will be converted back to the equivalent kWh at the rate in effect for the current billing period applicable to the Host Account's Service Classification. For customers that are not subject to an end-date to the term of service as defined in the Term of Service Section of this Rider such kWh equivalent will be purchased by the Company at the Rate specified in Special Provision (F) of Service Classification No. 15.

For customers that are not subject to an end-date to the term of service as defined in the Term of Service Section of this Rider with farm waste, farm wind, residential solar or residential wind electric generators, a one-time selection of the month in which such annual purchase will occur may be made, which will become the new annual purchase month in subsequent years. A monetary refund will be issued to the customer for the amount resulting from such net sale. At year end, any cumulative net sale for residential Micro-Hydro or for non-residential solar, non-residential wind, or Micro-Hydro electric generators will be carried over to the next year.

At the end of an annual period for farm waste or farm wind electric generators that are CGD Host Accounts, any Annual CDG Credit on the CDG Host Account will be distributed to one or more of its CDG Satellite Accounts pursuant to the CDG Host's instructions and carried forward on that CDG Satellite Account to the next year. The rules described in in paragraph (B)(3) of this Rider will apply for any undistributed credits that remain on the CDG Host Account.

(D) The requirement that the billing demand for the billing months of October through May inclusive shall not be less than 70% of the highest metered demand for the preceding billing months of June through September inclusive as contained in Service Classification Nos. 2 and 3, "Determination of Demand", shall not apply to farm operation or non-residential solar or wind customer-generators taking service under this Rider, but shall apply to any Satellite Account participating in Remote Net Metering or Community Distributed Generation.
