

Effective Date: 04/27/2017

PSC No: 120 - Electricity  
 New York State Electric and Gas Corporation  
 Initial Effective Date: April 1, 2017  
 Issued in compliance with Order in Case Nos. 15-E-0751 and 15-E-0082, dated March 9, 2017.

Leaf No. 117.0.3  
 Revision: 2  
 Superseding Revision: 1

### GENERAL INFORMATION

#### 22. Farm Waste Electric Generating System Option (Cont'd)

##### I. Special Provision (Cont'd)

##### a. Remote net Metering (Cont'd)

#### 4. Calculation and Application of Net Metering Credits (Cont'd)

##### B. Application of Monetary Credits - Demand Billed or a Facility Located and Used at Farm Operation: (cont'd)

##### Satellite Accounts:

Any remaining monetary credit shall be allocated between the Host Account and the Satellite Accounts. The portion designated for the Satellite Accounts shall be applied to each Satellite Account bill as each subsequent Satellite Account bill is calculated. In the case of two Satellite Accounts billed on the same day, the credit shall be applied to the highest usage account first.

The credit applied to each Host or Satellite Account shall not exceed the current electric delivery charges, and if applicable, Company supply charges. If a monetary credit remains after applying credits to all designated Satellite Accounts, the credit shall be carried forward on the Host Account and the allocation process between Host and Satellite Accounts shall repeat until the value of the excess credit is zero, or until all associated accounts are finalized.

##### C. Application of Volumetric kWh Credits:

As each Satellite Account is billed, Excess Generation designated to the Satellite Account is converted to a monetary credit and applied to the per kWh charges on the Satellite Account. Monetary credits are calculated using the per kWh rate for the Service Classification applicable to the Satellite Account. If a credit remains after applying to the Satellite Account, the credit is converted back to kWh based on the per kWh rate for the Service Classification applicable to the Satellite Account and the kWh are transferred to the Host Account. This process between Host and Satellite Accounts shall repeat until the value of the excess credit is zero, or until all the Satellite Accounts have been billed. Any remaining kWh credits shall be carried forward on the Host Account to the following month.

##### D. Application of Credits at Avoided Cost - Facility Located and Used at Premises:

In a month where the Host Account has Excess Generation, the Excess Generation shall be converted to the monetary value at the Company's Service Classification No.10 Buy Back Service Energy only rate.

The remote net metering credit shall first be applied to any outstanding charges on the Host Account's current electric bill. Any remaining monetary credit shall be allocated between the Host Account and the Satellite Accounts. The portion designated for the Satellite Accounts shall be applied to the Satellite Account bills as each subsequent Satellite Account bill is calculated. In the case of two Satellite Accounts billed on the same day, the credit shall be applied to the highest usage account first.

The credit applied to each Host or Satellite Account shall not exceed the current electric delivery charges, and if applicable, Company supply charges. If a monetary credit remains after applying credits to all designated Satellite Accounts, the credit shall be carried forward on the Host Account and the allocation process between Host and Satellite Accounts shall repeat until the value of the excess credit is zero, or until all associated accounts are finalized.

##### E. Upon the Company's determination that the customer has taken service under this Section 22 while in violation of the conditions of service set forth in this Schedule, the customer shall forfeit any positive balance accrued during the annual period in which the violation occurred.

ISSUED BY: Joseph J. Syta, Vice President, Controller and Treasurer, Binghamton, New York
