

PSC NO: 15 ELECTRICITY LEAF: 163.5  
COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION REVISION: 11  
INITIAL EFFECTIVE DATE: 04/01/17 SUPERSEDING REVISION: 10  
Issued in Compliance with Order in C. 15-E-0302 dated February 22, 2017

### **36. OTHER CHARGES AND ADJUSTMENTS** (Cont'd)

#### **C. Clean Energy Standard (CES)**

Effective April 1, 2017, a Clean Energy Standard (CES) Surcharge will be implemented to recover Case 15-E-0302 Tier 2 Maintenance Contracts and Backstop Charges costs. The CES Surcharge will be stated in whole \$0.00001 amounts per kilowatthour, will be the same for all applicable Service Classifications, and will be applied to the energy (kWh) deliveries on the bills of all full service and delivery service customers served under this Schedule. The CES Surcharge will be determined, at a minimum, on an annual basis to be effective with the first billing batch in April, and will include a reconciliation of prior period CES Surcharge recoveries (eleven months actual, one month forecast) as applicable, and an allowance for bad debts.

Not less than fifteen (15) days prior to a proposed change in the CES Surcharge, the proposed CES Surcharge and effective date will be filed with the Public Service Commission on the System Benefits Charge Statement pursuant to General Information Section 36.A.

For billing purposes, the CES Surcharge will be combined with the System Benefits Charge, as described in General Information Section 36.A, with the combined amount shown as one line item on customer bills.

#### **D. HEAP Bill Credit Program**

Each residential customer who received a HEAP benefit for their Central Hudson bill during the 2012/2013 HEAP Plan Year will receive a credit each month applied to their Central Hudson account. A HEAP credit will continue for 12 consecutive months, or until either the customer renews their HEAP eligibility for a succeeding Plan Year or the HEAP Bill Credit Program is terminated. Pursuant to the Order in Case 12-M-0192 issued and effective June 26, 2013, bill credit levels for eligible single and dual service HEAP program participants shall apply as follows. The monthly credit for electric only heating customers shall be \$17.50 per month. The monthly credit for electric only non-heating customers shall be \$5.50 per month. For customers taking both electric and gas service from the Company, the monthly credits shall be \$23.00 and \$11.00 for heating and non-heating customers respectively. To avoid any immediate reduction in benefits, any single service non-heating customer currently enrolled in HEAP for the 2012/2013 HEAP Plan Year will continue to receive the previously established bill credit of \$11.00 per month for a total of twelve consecutive months or until the customer renews their HEAP benefit for the succeeding Plan Year, whichever is less. If a single service non-heating customer renews their HEAP benefit for succeeding Plan Years, the customer will continue to receive a bill credit, as established above, of \$11.00 per month as long as the customer's HEAP eligibility is renewed in a month succeeding a month in which the customer received the \$11.00 bill credit, such that the customer receives the bill credit continuously without interruption. A single service non-heating customer receiving a bill credit of \$11.00 per month as established above, who does not timely apply for a HEAP benefit, such that they do not receive the bill credit for one calendar month or more, and who subsequently receives a HEAP benefit will receive a bill credit of \$5.50 per month as established above.

#### **Reconnection Fees**

For customers participating in the Enhanced Powerful Opportunity Program or the HEAP Bill Credit Program, service reconnection fees will be waived, with a limit of one time per customer. Waivers will be granted in compliance with the funding terms established in the June 26, 2013 Order in Case 12-M-0192. Central Hudson may grant waivers to individual customers more than once during this period, on a case-by-case basis and for good cause shown.
