

P.S.C. No. 1 – Water
SUEZ Water New York Inc.
Initial Effective Date: February 1, 2017

Leaf No. 31
Revision: 0
Superseding Revision:

GENERAL INFORMATION

5.10 Drought Charges

Whenever the County of Rockland Health Department any duly authorized government entity ("Government Entity") enacts mandatory county-wide water restrictions due to drought affecting any part of the Company's service territory, the drought charge applicable under Service Classifications 1, 6 and 7 shall apply in accordance with that Service Classification.

6. PUBLIC FIRE PROTECTION

6.1 Installation of Fire Hydrants

- A. Upon application of duly authorized representatives of municipalities in the territory supplied, the Company will install fire hydrants for purposes of public fire protection, at locations agreed upon by the municipal authorities and representatives of the Company.
- B. Hydrants are owned by the Company and subject to regular inspection and maintenance by the Company.
- C. Hydrants may not be used for street sprinkling, flushing of streets and sewers, catch basins, storm water drains, demonstrations, tests, fire drills or similar purposes, or for filling swimming or wading pools or areas set aside for ice skating, or for any purpose other than public fire protection, without the written permission of the Company. When use for other than fire protection is authorized by the Company, appropriate measures will be taken by the user to prevent backflow.

6.2 Use of Hydrants Other Than in Emergency

- A. Where it is necessary to use hydrants for any purpose other than for public fire protection in an emergency or where no other source of water supply is available, a special permit is required, issued by the Company, under restrictions imposed in the interest of the public, including requiring the user to take appropriate means to prevent backflow. The Applicant for such permit shall notify the local fire department of the intended use of a hydrant before using it and keep the permit card with him when the hydrant is in use.
- B. Fire departments should inform the Company promptly of any hydrant which has been used or which is leaking, or in need of attention, so that such hydrants may be placed in readiness for instant operation.

Issued in compliance with the Commission Order 16-W-0130 dated January 24, 2017
