Issued in compliance with order in Case 13-E-0030 dated 02/21/2014

Leaf: 301
Revision: 2
Superseding Revision: 1

GENERAL RULES

24. Service Classification Riders (Available on Request) - Continued

RIDER W – DAY AHEAD DEMAND REDUCTION PROGRAM - Continued

G. Restrictions as to Availability of this Rider

Service under this Rider shall not be available to Retail Access Customers. PASNY Customers who have part of their requirements served under SC 8, 9, 12, or 13 are eligible for service under this Rider for electricity requirements served under this Rate Schedule of at least 100 kW; provided, however, that the Customer is not eligible under this Rider for electricity requirements served under electricity requirements served by NYPA, an ESCO, or a Direct Customer's Supplier under Special Provision G of SC 9.

H. Metering

Each Customer's entire service must be measured by one or more interval meters, and Customers must maintain any associated pilot wiring in good working order. If the Customer's service is not measured by one or more interval meters, provided in connection with other Con Edison service requirements, the Customer shall arrange for the furnishing and installation of interval metering with telecommunications capability, and arrange for telecommunications service, at the Customer's expense, net of any discount or rebate received by the Customer, before the Customer's application shall be accepted for service under this Rider. A Customer with on-site generation will be required to provide interval metering data establishing, to the Company's reasonable satisfaction, that the generator was not used to achieve its Bid.
