Issued in compliance with order in Case 13-E-0030 dated 02/21/2014

PASNY DELIVERY SERVICE

General Provisions - Continued

Standby Service - Continued

General Rule 20.3.1(b) means, under this Rate Schedule, PASNY Customers who would otherwise receive service under the Energy Charge of Rate I if they did not have on-site generation. The election specified under General Rule 20.3.1(c) must be made by PASNY in advance in writing at least 30 days before the PASNY Customer commences operation of the on-site generation facility.

The following provisions of General Rule 20 are not applicable to service under this Rate Schedule: General Rules 20.5, 20.6, 20.7, 20.8, and 20.9.

Applications for Standby Service under this Rate Schedule must be made in writing by PASNY.

The delivery charges applicable to all PASNY Customers billed under Standby Service rates include, but are not limited to, a Customer Charge per month, a Delivery Service Contract Demand Charge, and As-used Daily Delivery Service Demand Charges. Where meter data is not available, the As-used Demand will be based on the best available data. For a Customer that is a Wholesale Generator, As-used Demand Charges under Rate III and Rate IV will not apply to demand experienced during any period when it self-supplies all of its energy needs from the load side of the meter.

The delivery charges applicable to a PASNY Customer that is a Wholesale Generator and takes Standby Service for Station Use shall be exclusive of transmission charges if the PASNY Customer is registered with the NYISO to self-supply and net station power under the provisions of the NYISO "ISO Market Administration and Control Area Services Tariff" ("Market Services Tariff"), and PASNY provides written proof to the Company of such registration. The charges are shown under Rate III and Rate IV.
