## GENERAL RULES

### 11. Billing Applicable to Service Under Certain Economic Development Programs – Continued

#### b. Allocating Demand to the Various Programs

The demand served under RNY, as applicable, will be the lower of (i) the demand allocation under that program or (ii) the registered monthly maximum demand. If Delivery Service for the RNY load is furnished under Special Provision H of SC 9, the demand served under RNY for Delivery Service will be the lower of (i) the RNY demand allocation or (ii) the registered maximum monthly maximum demand less the demand served under Special Provision H of SC 9. A Customer who has demand served under WTC is not eligible to have Delivery Service for RNY load served under Special Provision H of SC 9.

The demand served under WTC, as applicable, will be the lower of (i) the demand allocation under that program or (ii) the registered monthly maximum demand less any demand served under RNY. If billing is issued under WTC Standby Service rates, the As-used Daily Delivery Service Demand Charge for each time period will be equal to the Daily Peak Demand during the applicable time period multiplied by the Allocation Ratio.

For purposes of General Rule 11, “registered monthly maximum demand” means the maximum demand as defined in General Rule 10.4, except as follows:

“Registered monthly maximum demand” means “billable” demand for a Customer served under Special Provision D of SC 9.

#### c. Allocation Ratio

The “Allocation Ratio” under each program equals the demand served under that program, as determined in subparagraph “b” above, divided by the registered monthly maximum demand.
