

April 5, 2019

Honorable Kathleen H. Burgess, Secretary  
State of New York Public Service Commission  
Three Empire State Plaza  
Albany, NY 12223-1350

Re: Statement of Value of Distributed Energy Resources – Credits

Dear Secretary Burgess:

In accordance with General Information Section 48.B of P.S.C. No. 15 – Electricity, the Statement of Value of Distributed Energy Resources – Credits listed below is filed to become effective April 11, 2019:

PSC No. 15 – Electricity

Statement of Value of Distributed Energy Resources – Credits – VDER-CRED 22

The purpose of this filing is to revise the Capacity Component credit rates under Alternatives 1 and 3 consistent with the rates determined under the Energy Cost Adjustment Mechanism and Hourly Pricing Provision of P.S.C. No. 15 – Electricity, which were also filed today to become effective April 11, 2019.

The statement has also been revised to add an additional DRV rate which is applicable to all qualifying projects other than PV projects that do not have measured net generation in the previous calendar year. The DRV rate of \$1.21/kW-month represents the full unadjusted DRV value of \$14.55/kW-year as calculated in Central Hudson Gas & Electric Corporation's Marginal Cost of Service Studies filed March 23, 2017 in Case 15-E-0751. The DRV rate of \$0.50/kW-month represents the full DRV value of \$14.55/kW-year that has been derated based on the average percentage of PV output that occurred during the top ten peak hours of 2016. PV projects that do not have the necessary measured net generation in the previous calendar year will receive DRV compensation of \$0.50/kW-month until such measured net generation becomes available to calculate an average generation profile.

Yours very truly,

Anthony S. Campagiorni  
Vice President  
Customer Services & Regulatory Affairs
