March 23, 2015

Honorable Kathleen H. Burgess  
Secretary  
New York State Public Service Commission  
3 Empire State Plaza, 19<sup>th</sup> Floor  
Albany, New York 12223

**RE: Cases 14-E-0151 and 14-E-0422, Net Metering**

Dear Secretary Burgess:

Consolidated Edison Company of New York, Inc. (“Con Edison” or the “Company”) is filing with the Public Service Commission (the “Commission”) an amendment to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Tariff”), applicable to its customers in the City of New York and the County of Westchester.

The revised Tariff Leaf, which is identified below, makes a change to Rider R – Net Metering for Customer-Generators. The Tariff Leaf has an effective date of May 4, 2015:

<u>Tariff Leaf No.</u>	<u>Revision No.</u>	<u>Superseding Revision</u>
245	3	2

**Tariff Change**

The Commission’s Order Raising Net Metering Minimum Caps, Requiring Tariff Revisions, Making Other Findings, and Establishing Further Procedures (the “December Order”), issued and effective December 15, 2014, in Cases 14-E-0151 and 14-E-0422, directed utilities to file tariff changes to increase net metering purchase caps to 6 percent from 3 percent of 2005 load.<sup>1</sup> As a result, the Company is filing a change to Leaf 245 to increase the net metering purchase cap to 664,920 kW.

---

<sup>1</sup> The December Order also had two other components: (a) it directed utilities to credit remote net-metered Satellite accounts on a volumetric, instead of a monetary basis, if the Host Account is billed for energy-only; and (b) it waived this crediting methodology for certain “grandfathered” projects, eligibility for which was clarified in the Commission’s Order Clarifying Prior Order, issued and effective January 9, 2015.

### **Conclusion and Notice**

Ordering Clause 1 of the December Order directed utilities to file tariff changes by December 22, 2014, to become effective January 2, 2015. The Commission's Notice Extending Time to File, issued December 19, 2014, granted the utilities an extension to file tariff changes by February 20, 2015, to become effective March 24, 2015. The Commission's Notice Extending Time to File, issued February 19, 2015, granted the utilities a further extension to file tariff changes by April 3, 2015, to become effective on May 4, 2015. Accordingly, this filing is issued with an effective date of May 4, 2015.

As specified in Ordering Clause 3 of the December Order, the requirement for newspaper publication was waived.

Very truly yours,  
CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

/s/ William A. Atzl, Jr.  
Director  
Rate Engineering

---

Implementation of these two components was stayed by the Commission's Order Staying Prior Order in Part, issued and effective February 27, 2015.
