Honorable Kathleen H. Burgess, Secretary
State of New York
Public Service Commission
Office of the Secretary, 19th Floor
Three Empire State Plaza
Albany, New York 12223-1350

RE: Case 12-E-0201 – Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Niagara Mohawk Power Corporation d/b/a National Grid

Dear Secretary Burgess:

The enclosed leaves, issued by Niagara Mohawk Power Corporation d/b/a National Grid, are being transmitted for filing in accordance with the requirements of the New York State Public Service Commission (“Commission”).

Tenth Revised Leaf No. 228
Third Revised Leaf No. 355

to PSC No. 220 Electricity

Effective: September 1, 2014

On December 20, 2013, the Company submitted a filing proposing a time-of-use commodity pricing offering for interested residential customers receiving service under the Company’s Service Classification 1 (“SC-1”). Per the Order in Case 12-E-0201, the Commission directed the Company to complete the efforts on the combined delivery/commodity option so that a new rate design could be implemented on April 1, 2014. The implementation date was subsequently postponed to September 1, 2014.

Based on conversations between Staff of the Company and Staff of the PSC, it was determined that the above leaves needed to be revised to reflect changes in the super peak period hours of this proposal to exclude weekends and holidays. These changes resulted from historic analysis of the New York Independent System Operator (“NYISO”) system peaks that show the system peak has never occurred on a weekend or holiday. The capacity costs during the summer months will be recovered over the super peak period hours only. Therefore, it is appropriate to include only the weekdays (excluding holidays) in the super peak period during June, July and August. In addition, the Company is including clarifying language to indicate that the price guarantee offered to PEV owners after the initial one year term will only be available for customers that take supply service from the Company.

Waiver of the newspaper publication requirements of PSL §66-12 and 16NYCRR 720.8 is requested for this filing since the Company proposed to utilize a number of key customer channels to communicate this rate offering to residential customers with a focus on PEV owners.

This filing is also made in accordance with Appendix 7-H (electronic filing system) to the Commission’s Codes, Rules and Regulations (16 NYCRR, Appendix 7-H).

If you have any questions concerning this filing, please call Patricia Rivers at (315) 428-6833.

Sincerely,

/s/Patricia J. Rivers
