Honorable Kathleen H. Burgess, Secretary
State of New York
Public Service Commission
Office of the Secretary
Three Empire State Plaza
Albany, NY 12223

RE: Case 15-E-0082 – Proceeding on Motion of the Commission as to the Policies, Requirements and Conditions for Implementing a Community Net Metering Program.

Dear Secretary Burgess:

The enclosed leaves, issued by Niagara Mohawk Power Corporation d/b/a National Grid (“the Company”), are being transmitted for filing in compliance with the order issued in Case 15-E-0082 (“Order”) on July 17, 2015 by the New York State Public Service Commission (“Commission”).

Eighth Revised Leaf No. 2
First Revised Leaf No. 37.1
Seventh Revised Leaf No. 148
Fourth Revised Leaf No. 149
Fifth Revised Leaf No. 150
Second Revised Leaf No. 151

To PSC No. 220 Electricity

Effective: October 19, 2015

Purpose of Filing:

The above Order, issued and effective July 17, 2015, in Case 15-E-0082, directed all electric utilities to file tariff changes to implement Community Distributed Generation (“CDG”). CDG is a form of net metering in which the net energy produced by a generator owned or operated by a non-residential customer (“CDG Host”) may be credited to the accounts of other customers (“CDG Satellite Accounts”), provided the CDG project meets certain requirements established by the Order. CDG will be implemented in two phases. During the introductory Phase 1 period which will run through April 30, 2016, two types of projects will be interconnected, those that locate in a CDG Opportunity Zone designated in a map posted on the utility’s website or have a minimum of 20 percent of the CDG Satellite Accounts designated as low-income. Thereafter in Phase 2, CDG will be available throughout the utility’s entire service territory.

In compliance with this Order, the Company is filing Rule 29 – Community Distributed Generation which sets forth the requirements of CDG as set forth in the body of the Order. As required by the Order, the Company has coordinated development of this filing with the other state electric distribution companies.

CDG Operating Procedure

The Company’s CDG Operating Procedure, which is separate from the Tariff, will be posted to the Company’s website. The CDG Operating Procedure will provide the format and requirements for CDG Hosts’ submissions, including the application for CDG service, and identify consumer protections required of CDG Hosts until such time that the PSC establishes the Uniform Business Practices for Distributed Energy Resource Providers. The Company is working with the other state electric distribution companies to coordinate these procedures.

Honorable Jaclyn A. Brillling, Secretary
September 28, 2015

2

Case No. 15-E-0082

Ordering Clause 2 of the Order directed utilities to file tariff changes within 60 days of the Order, to become effective on October 19, 2015. The Commission's Notice Granting in Part and Denying in Part Request for Extension of Time, issued September 9, 2015, granted the utilities an extension to file tariff changes by September 28, 2015, and directed no change in the tariff amendments' effective date. Accordingly, this filing is issued with an effective date of October 19, 2015.

Also, as directed in Ordering Clause 4 of the Order, the requirement for newspaper publication are waived for this filing.

If you have any questions concerning this filing, please call Patricia Rivers at (315) 428-6833.

Sincerely,

/s/ Carol Teixeira
