Re: CASE 14-M-0224 - Proceeding on Motion of the Commission to Enable Community Choice Aggregation Programs

Filing of Proposed CCA Tariff Leaf for National Grid

Dear Secretary Burgess:

On behalf of The Brooklyn Union Gas Company d/b/a National Grid NY (“KEDNY”), KeySpan Gas East Corporation d/b/a National Grid (“KEDLI”), and Niagara Mohawk Corporation d/b/a National Grid (“NMPC”)(collectively with KEDNY and KEDLI, “National Grid” or the “Company”), I am writing to submit the enclosed tariff leaves in accordance with the Public Service Commission’s (the “Commission’s”) order issued April 21, 2016 in the above-reference proceedings (the “Order”), and your letter dated June 6, 2016, granting a request to extend the deadline to submit proposed tariffs to August 5, 2016.

On April 21, 2016, the Commission issued the Order directing electric and natural gas utilities statewide to increase the ability of individuals and communities to manage their energy usage and bills in order to facilitate wider market based deployment of clean energy including energy efficiency, large-scale renewables and distributed energy resources (DER) and to also increase the benefits of retail competition for residential and small non-residential customers. The Order also authorized municipalities (villages, towns, and cities) to undertake Community Choice Aggregation (“CCA”) programs consistent with the discussion in the Order and its appendices.

Page 2 of 3

In accordance with Ordering Clause 3 of the Order, utilities were directed to provide (a) aggregated and customer-specific information from utilities to municipalities, municipal contractors, and ESCOs under the terms described in the Order; and (b) the switching of customers currently receiving supply service from the utilities to ESCO supply without affirmative consent of the customers as also documented in the Order.

Ordering Clause 4 directed each affected utility that intended to charge a fee for the provision of the data to file proposed tariffs for Commission consideration, along with an explanation of why the proposed fees are reasonably related to the value of the data and the cost to the utility producing the data. The attached proposed tariff leaves for NMPC, KEDLI and KEDNY set forth their respective CCA Program(s) in accordance with the requirements of the Order and the extended timeline to file. Attachment 1 included with this filing sets forth the methodology used to calculate the CCA costs as described in the tariff leaves provided.

Waiver of newspaper publication in accordance with the requirements of PSL §66-12 and 16NYCRR 720.8 is requested for this filing. Customers will be notified of the "CCA" Program from their respective municipality or their designee as this program becomes available.

If you have any questions concerning this filing, please contact me at the number or address below.

Sincerely,

/s/ Jeremy J. Euto
