Re: Friedlander Water Supply - Application to Increase Rates

Dear Secretary Brillling:

The enclosed amendments, submitted by Water Rates Staff, on behalf of Friedlander Water Supply, are transmitted electronically for filing in compliance with the requirements of the Public Service Commission of the State of New York.

P.S.C. No. 1- Water  
Leaves Nos. 1 to 12  
Effective Date: August 1, 2009

On May 1, 2009, Friedlander Water Supply submitted a request to the Commission to convert its Tariff to an electronic format; also it's requesting to be allowed to increase its rate. The company's last rate increase went into effect June 29, 1988, since that time the company lost four of its customers and the costs of operation and maintenance of the system have increased considerably.

The company proposes to increase its annual flat rate from \$480 to \$1080 billed monthly, a 125% increase over the current rate. Friedlander Water Supply's annual revenues will increase by \$6,480. In addition, Friedlander Water Supply requests to increase its current restoration of service charge from a flat fee of \$10 to \$50 during normal business hours, \$75 outside of normal business hours and \$100 during weekends and public holidays.

By this letter, it is requested that the Staff of the Water Rates Section file the Electronic tariff as well as any other leaves required by the Commission electronically.

The Company is also requesting waiver of the requirement of newspaper publication of the proposed changes since it will notify its customers of the proposed changes individually by mail.

Sincerely,

Remedios Friedlander, President  
Friedlander Water Supply
