**SERVICE CLASSIFICATION NO. 1 (CONT'D)**  
**Residential**

**MULTI-FAMILY DWELLINGS:**

Where two or more families with separate cooking facilities occupy a residential dwelling, the wiring shall be so arranged that the service to each family unit is metered and billed separately. All common service facilities (i.e. passageways, stairs, heating, air conditioning, general area lighting, etc.) serving occupants of a multi-family dwelling shall be separately metered and shall be classified as a Commercial Service and billed under that rate schedule. Any private dwelling, individual flat or apartment in which there resides more than four (4) (or as currently stipulated in the City of Plattsburgh's Zoning Ordinance) unrelated establishments and billed under that rate schedule.

**TERM:**

One (1) year and thereafter until terminated by 48 hours written notice.

**PURCHASE POWER ADJUSTMENT:**

All kilowatt-hours sold under this schedule are subject to Purchase Power Adjustment Charges in accordance with Section VII of Plattsburgh Municipal Light Department Tariff and consistent with Rule IX of the NYMPA generic tariff.

**SERVICE CLASSIFICATION NO. 2**  
**General Service - Non-demand Metered**

APPLICABLE TO USE OF SERVICE FOR:

Available to any Commercial (non-residential) customer for all uses including (but not limited to) heating, lighting, water heating, cooking, clothes drying, refrigeration, etc. This rate is available for total requirement customers with monthly kilowatt hour usages of 6,000 kilowatt hours or less per month. Customers exceeding 6,000 kilowatt hours for any two months in a single Winter period shall be transferred to Service Classification No. 4 for a period of twelve (12) months and shall be returned to Service Classification No. 2 only if consumption remains 6,000 kilowatt hours or less for twelve consecutive months.

All energy shall be taken at one point of service and through a single meter for an individual customer or if there is more than one individual customer in a single structure, the energy shall be taken at one point of service and through a single meter for each individual customer. Each individual meter shall be billed separately as per the rate schedule. This rate is not available for resale, auxiliary, or standby service of any type.

This rate is applicable to all Small Commercial Service within the City of Plattsburgh as described in Territory To Which Schedule Applies.

## **SERVICE CLASSIFICATION NO. 7**

### **Private Outdoor Lighting**

#### APPLICABLE TO USE OF SERVICE FOR:

Private Lighting Luminaires (Dusk-to-Dawn Lighting Services) for homes, schools, security, churches, commercial areas, and industry shall be provided where feasible and in keeping with good electrical practice, providing said equipment is, and remains, readily accessible for maintenance purposes, is available to all qualifying customers within the City of Plattsburgh described in Territory To Which Schedule Applies. This is an unmetered lighting service, dusk-to-dawn, and at other times of abnormal darkness, approximately 4200 hours annually.

#### TERMS, CONDITIONS, AND SPECIAL CONDITIONS:

- A. A self-contained automatic Dusk-to-Dawn 0-400 watt equivalent cobra head style LED shall be installed by the City of Plattsburgh Municipal Lighting Department on existing wood pole structures, for the customer, at monthly charge rate as indicated in the Summary of Rates for a minimum two year period. The monthly charge will be added to the customer's monthly utility bill and shall become an integral part of same. The City of Plattsburgh Municipal Lighting Department will be responsible for making the installation, furnishing the electricity for the operation of the lamp, providing all the necessary maintenance (including the replacement of lamps, but excluding malicious damage) for the two year period and all subsequent time addition to the contract.
- B. A self-contained automatic Dusk-to-Dawn 0-250 watt LED wide lighting fixture shall be installed, by the City of Plattsburgh Municipal Lighting department on existing wood pole structures, for the customer, at monthly charge rate as indicated in the Summary of Rates for a minimum two year period. The monthly charge will be added to the customer's monthly utility bill and shall become an integral part of same. The City of Plattsburgh Municipal Lighting Department will be responsible for making the installation furnishing the electricity for the operation of the lamp, providing all the necessary maintenance (including the replacement of fixtures. but excluding malicious damage) for the two year period and all subsequent time addition to the contract.
- C. The Plattsburgh Municipal Lighting Department, at its option, shall make necessary repairs to an existing high pressure sodium lighting fixture or replace the high pressure sodium lighting fixture with an equivalent LED fixture. All new lighting installations will use LED fixtures. High pressure sodium fixtures are not available for new installations and are being phased out by manufacturers.

**SERVICE CLASSIFICATION NO. 7 (CONT'D)**  
**Private Outdoor Lighting**

**TERMS, CONDITIONS, AND SPECIAL CONDITIONS:**

- D. Where necessary for proper illumination or where existing poles are inadequate, the City of Plattsburgh Municipal Lighting Department may install or cause to be installed one additional pole for each installed light, at a distance not to exceed one hundred (100) feet per pole span from said existing lines. Each additional pole span shall not exceed a span spacing of one hundred (100) feet. Additional poles required to install a light in a customer's specifically desired location shall bear a cost of two hundred and seventy-five dollars (\$275.00) for each pole, payable by the customer prior to installation.
- E. A two year minimum contract shall be agreed to and signed by each customer desiring Dusk-to-Dawn Lighting Service, authorizing fixed monthly charges to be applied to the monthly utilities bill. In the event that a customer desires the removal of the unit or discontinuance of the service of the remainder of the contract, the contract shall become due and payable. Ownership of the photo-electrically controlled luminaire will remain with the Plattsburgh Municipal Lighting Department.
- F. Dusk-to-Dawn Lighting shall be installed on wood poles with a normal ground to lamp height of approximately thirty (30) feet.
- G. The customer shall notify the Plattsburgh Municipal Lighting Department of any interruption to service of the Dusk-to-Dawn lighting. The Plattsburgh Municipal Lighting Department will restore service only during regularly scheduled working hours and shall, in any event, be under no obligation to do so until 72 hours from the time of notification. In the event the Plattsburgh Municipal Lighting Department is unable to effect repairs within this period, the Plattsburgh Municipal Lighting Department's only responsibility will be to abate the charges on a pro-rata basis for each day after such period in which service is not available. The customer shall remove any obstruction to the installation or maintenance of the facilities; shall trim trees to improve the distribution of light; shall provide any permits or easements required for the installation and maintenance of the facilities; and shall permit access to the facilities by the Plattsburgh Municipal Lighting Department vehicles and personnel.
- H. Service under this Service Classification, once canceled by the customer, shall be unavailable to said customer at the same premises for one year from the date of such cancellation.

## **PURCHASED POWER ADJUSTMENT CHARGE**

### **APPLICABILITY:**

All customers receiving service under any of the Plattsburgh Municipal Lighting Department are subject to purchased power adjustment charges ("PPAC").

### **ADJUSTMENT CHARGE:**

The PPAC shall be the amount which shall be added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission and independent system operator (ISO) costs and charges billed to the Plattsburgh Municipal Lighting Department from all service providers.

### **CALCULATION OF THE PURCHASED POWER ADJUSTMENT CHARGE**

The PPAC shall equal the total cost of all power and transmission costs billed to the Plattsburgh Municipal Lighting Department in each month divided by the total kWh purchases in that month, less the base cost of purchased power measured at system input level, adjusted by a loss factor of 1.041794. The resultant cost per kilowatt-hour shall be rounded to the nearest \$0.0001/kilowatt-hour and applied as a charge or credit to all kilowatt-hours billed in the following month.

### **BASE COST OF POWER**

The base cost of power for computation of the PPAC shall be \$0.014771/kilowatt-hour as measured at the system input level. The base cost of power measured at the sales level shall be \$0.015388/kilowatt-hour.

## **PURCHASED POWER ADJUSTMENT CHARGE (CONT'D)**

### OTHER CHARGES AND CREDITS

The Plattsburgh Municipal Lighting Department may include in the PPAC reconciliations of prior period over or under recovery of power costs, additional one-time or irregular credits or charges resulting from billing adjustments, refunds or regulatory requirements. In the event of prior period reconciliation, the total cumulative amount of under or over collection in dollars shall be divided by the most recent twelve months of kWh sales. The resultant cost per kilowatt-hour shall be rounded to the nearest \$0.0001/kilowatt-hour and added or subtracted from the current months PPAC charge.

Each customer bill for service under Service Classification Nos. 1, 2, 4, 6 and 7 will be increased by multiplying all kilowatt-hours delivered by a surcharge of \$.001. The surcharge is imposed to support the Independent Energy Efficiency Program that support energy awareness and conservation projects.

### APPLICATION OF THE PURCHASED POWER ADJUSTMENT CHARGE

The purchased power adjustment charge shall be applied to all kilowatt-hours of each rate schedule.

A. RECONNECTION CHARGE

When it becomes necessary to dispatch personnel to reconnect electric service which was disconnected for non-payment of bills or any other infringement of the Rules and Regulations governing electric service, the Plattsburgh Municipal Lighting Department (PMLD) shall make a charge of \$35 for reconnection. Payment shall be required in advance of reconnection. If such reconnection is required after normal working hours, on a holiday, or a weekend period (Saturday or Sunday), the charge will be the full employee cost for a one-man, four hour contractual callout and based on the full in-force prevailing wages of these employees at the time of the callout.

The PMLD may make a charge of \$35 for reconnection where it has become necessary to dispatch personnel to discontinue the service for non-payment of bills or any other infringement of the PMLD's rules governing service.

Payment shall be required in advance of reconnection and shall be made during the normal crew availability hours of 8:00 a.m. to 4:00 p.m. on regular working days, which are Monday through Friday, excluding holidays. If such reconnection is required prior to or after the above specified hours, on a holiday, or a weekend period (Saturday or Sunday), the charge will be the full employee cost for a one-man, four hour contractual callout and based on the full in-force prevailing wages of these employees at the time of the callout.

B. INSUFFICIENT FUNDS CHECK CHARGE

Any checks received in payment for electric service which are returned to the PMLD for insufficient funds or otherwise dishonored by the bank, shall bear a nonrecurring charge of \$30.00 for each check that has to be processed by the PMLD. If two checks have been returned by the bank, such customer having issued the dishonored checks may be required by the PMLD to render future payments by cash, money order, certified or cashier's check; and such cash payment period shall be for a one (1) year subsequent good payment record has been established. Post dated checks shall be returned to the customer as invalid for the transaction. Only United States currency will be accepted for payment of accounts due the PMLD.

## PURCHASE OF RENEWABLE ENERGY FROM NEW DISTRIBUTED GENERATORS

### ELIGIBILITY:

Residential or non-residential customers who receive service under Service Classification No. 1, or 2 and own or operate Solar, Wind, or Solar or Wind combined with Energy Storage Electric Generating Equipment with a rated capacity of no more than fifteen kilowatts (15 kW - cumulative maximum export) located and used at their premise. Qualifying Customers must install and operate the Solar or Wind Generating system in compliance with *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* which is attached to these tariffs as *Addendum-SIR*, and may be from time to time changed, amended and/or supplemented. This program will be available to qualifying customers on a first come, first served basis, until the total rated generating capacity for Solar, Wind, and/or Energy Storage Electric Generating Equipment owned or operated by the Customer in the PMLD's service territory is equivalent to 1,200 kW (one-percent of the PMLD's system peak load).

### INTERCONNECTION COSTS:

Customers receiving service under this service classification will be responsible for 100% of necessary interconnection costs. An estimate shall be provided to applicants and (i) shall include the costs associated with any required modifications to the utility system, administration, metering, and onsite verification testing, as required under *Standard Interconnection Requirements* of this tariff and (ii) shall include the cost of installing any dedicated transformer(s) and other safety equipment, necessary to protect the safety and adequacy of electric service to other customers as required under *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* of this tariff – *Addendum - SIR*.

### METERING

The PMLD will provide one revenue meter for the purpose of billing. This meter will have bidirectional energy flow capability and will record both energy delivered and received by the PMLD. The charge for this meter will be included in the applicable monthly service charge.

### CUSTOMER CHARGES

The Customer will pay the rates and charges of the Customer's applicable Service Classification for energy delivered to the Customer by the PMLD.

SUPERSEDING REVISION:

### CUSTOMER CREDIT

1. If a customer produces more energy than consumed during an individual monthly billing cycle a kWh credit will be carried forward until consumed or the end of March.
2. If a customer produces more energy than consumed during the twelve-month period ending March 31, the PMLD will issue a credit to the customer with the utility billing issued in April. The credit will be calculated by multiplying the kWh credit balance by the average of the Present Purchased Power Cost from the otherwise applicable Purchased Power Statement, as filed during the past 12 months.
3. Upon payment of the credit, the kWh credit balance shall be reset to zero.

### REQUIREMENTS FOR INTERCONNECTION

The generating equipment must be designed, installed, interconnected, tested and operated in accordance with the applicable government, industry and the PMLD's requirements and must comply with the *New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators Connected in Parallel with Utility Distribution Systems* which is attached to these tariffs as *Addendum - SIR*. The system design output shall not exceed 110% of the prior 12 months of metered energy consumption.
