Per Customer Cost		\$1.1993	\$1.1963	\$1.1989		\$0.9637
A) - Aggregated Data (10%) (5)		\$0.12	\$0.12	\$0.12		\$0.10
B) - Individual account data (90%)		\$1.08	\$1.08	\$1.08		\$0.87
C) - New Customer moving into CCA		\$1.08	\$1.08	\$1.08		\$0.87

- (1) Represents customers who are not currently with an ESCO, in a Green Up program or subject to a block on their account.
 (2) Assumed Participation Rate of 54% based on National Grid affiliates' experience with CCA in other jurisdictions. If NYC does CCA, KEDNY will be at 100
 (3) Estimated IT project to automate process and provide a secure transfer of customer information to municipality/aggregator.
 (4) KEDNY is a single CCA and requires a significant amount of effort to review the number of the customers eligible in a single CCA.
 (5) Applied a 10% / 90% weighting based on back loaded methodology.
