Dear Secretary Brillling:

In compliance with the Commission's Order in Case 02-M-0515 issued and effective April 24, 2003, Central Hudson Gas & Electric Corporation ("Central Hudson" or "the Company") has reviewed its existing tariffs, P.S.C. No. 12 - Gas, and has found them to be free of any terms and conditions that may impede the development of distributed generation service. However, if in the future, terms and conditions contained in the Company's tariffs do present barriers to the development of the distributed generation program, the Company will remove those provisions as necessary.

Yours very truly,

Arthur R. Upright
