SPECIAL PROVISIONS:

- A. Application for service may be oral, excepting as herein otherwise provided.
- B. Whenever service is supplied from a line extension constructed in accordance with the provisions of Rule V of the NYMPA generic tariff, and whenever such service is subject to a surcharge or minimum charge determined pursuant to these rules, Customer shall:
 - 1. Make written application for service upon the Municipal Commission of Boonville's prescribed forms.
 - 2. Comply with all of the applicable provisions of the rules including the guarantee to pay the surcharge or minimum charge.
 - 3. Upon terminating service pay the balance due on the surcharge or minimum charge.
- C. In buildings, apartments, or flats primarily intended for residence purposes where not more than four rooms occupied exclusively by the resident are used for business or for professional purposes this classification will apply to both uses. Under other circumstances the Commercial rate will apply to such business or professional use, including residence use if not separately metered.
- D. Customer taking service for the operation of welders, X-ray machines or any other equipment having a highly fluctuating or large instantaneous demand which causes undue voltage disturbance upon the circuit from which service is taken, thereby interfering with the service taken by other customers, shall install or pay for the necessary corrective equipment to avoid such interference with service to others or, failing to do so, shall pay in addition to the charge for service \$0.50 per month per KVA of the name-plate rating of such equipment.

TRANSFORMER OWNERSHIP CREDIT:

When the Customer elects to install, own and maintain the transformers and associated equipment required to take service at primary voltage, thereby saving the Municipal Commission of Boonville the cost of such equipment, a credit of thirty cents (\$0.30) per kilowatt of billing demand for such month shall be allowed against the amount determined under the preceding provisions.

MINIMUM CHARGE:

The minimum monthly charge is the Demand Charge computed under MONTHLY RATE, the Billing Demand being determined in accordance with the provisions included under DETERMINATION OF BILLING-DEMAND.

DETERMINATION OF BILLING-DEMAND:

- A. The Demand shall be the maximum thirty (30) minute integrated kilowatt demand. For billing purposes the Billing Demand shall be the greatest of the following:
1. The maximum demand occurring during the month for which charge is made.
 2. Seventy Five (75) percent of the highest demand occurring during any of the preceding eleven (11) months.
 3. During the initial term, the demand contracted for.
 4. Twenty (20) kilowatts.

POWER FACTOR:

The customer shall maintain a power factor at the point of his delivery of not less than ninety (90) percent lagging or leading as measured on a monthly basis. If customer is notified that their power factor has fallen below ninety (90) percent, corrective action must be taken within ninety (90) days. If action is not taken, the necessary corrective equipment will be installed by the Municipal Commission of Boonville and the customer will be billed for all costs incurred to correct the power factor to the required level.

TERMS OF PAYMENT:

All bills are due when rendered. Full payment must be received on or before the date shown on the bill to avoid a late payment charge of 1.5% as provided in Rule VIII of the NYMPA generic tariff.

TERM:

One (1) year from commencement of service under this Service Classification or under a Service Classification superseded hereby, and thereafter until canceled by Customer upon ninety (90) days prior written notice to the Municipal Commission of Boonville. Cancellation by Customer followed by resumption of service at the same location within one (1) year shall not modify in any way the DETERMINATION OF BILLING DEMAND as above provided.

When the amount of investment by the Municipal Commission of Boonville or other conditions of the service are such as to warrant, the Municipal Commission of Boonville may, with the permission of the New York State Public Service Commission, require that the initial term be longer than one (1) year.

PURCHASED POWER ADJUSTMENT CHARGE (PPAC)

APPLICABILITY

All customers receiving service under any of the Municipal Commission of Boonville's Service Classifications are subject to purchased power adjustment charges.

ADJUSTMENT CHARGE

The PPAC shall be the amount added to each kilowatt-hour of each rate schedule to reflect and recover all purchased power and transmission cost billed to the Municipal Commission of Boonville from all service providers.

CALCULATION OF THE PPAC

The PPAC shall equal the total cost of all power and transmission costs billed to the Municipal of Boonville in each month divided by the total kWh purchases in that month, less the base cost of purchased power measured at system input level adjusted by a loss factor (Factor of Adjustment) of 1.095775. The resultant cost per kWh shall be rounded to the nearest \$0.000001 and applied as a charge or credit to all kilowatt-hours billed in the following month.

ANNUAL RECONCILIATION

At the end of each fiscal year the Municipal Commission of Boonville will perform an annual reconciliation to determine whether there was an under- or over-collection of purchased power expense during the preceding year. The calculation is as follows:

Total Purchased Power Cost – (kWh sold x Base Cost of Purchased Power x Factor of Adjustment)

The result will then be compared to the actual PPAC revenues recovered during this period to determine if a PPAC Reconciliation Surcharge or Refund is applicable. The resultant Surcharge or Refund will be included as a line item in the following month(s) calculation(s) of PPAC in order to adjust revenues to more accurately reflect actual expenses. The number of months over which the Surcharge or Refund will be included will depend on the size of the Surcharge or Refund. If the Surcharge/Refund is under \$5,000 it will be included in one month. Surcharges/Refunds between \$5,000 and \$10,000 will be split between two months and any Surcharges/Refunds over \$10,000 will be charged/credited in \$5,000/month increments until complete in order to minimize the impact on rate payers.

BASE COST OF POWER

The base cost of power for computation of the PPAC shall be \$0.022238 /kilowatt-hour as measured at the system input level. The base cost of power measured at the sales level shall be \$.024297/kilowatt-hour.
