

PSC NO: 15 ELECTRICITY

LEAF: 184

COMPANY: CENTRAL HUDSON GAS &amp; ELECTRIC CORPORATION

REVISION: 8

INITIAL EFFECTIVE DATE: 04/01/12

SUPERSEDING REVISION: 6

Issued in Compliance with Order Establishing Filing Requirements dated November 21, 2011

SERVICE CLASSIFICATION NO. 2 (Cont'd)GENERAL SERVICE (Cont'd)SPECIAL PROVISIONS (Cont'd)

## 2.10 (Cont'd)

Customers owning or operating photovoltaic or micro-hydroelectric generating equipment who satisfy all installation and operation requirements will be allowed to combine their energy purchases from and sales to the Company in a billing period.

For non-demand metered customers in the event:

- (i) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the Customer will be billed for the difference at applicable rates specified in this Service Classification.
- (ii) the amount sold to the Company exceeds the amount purchased from the Company (net sales), the difference will be transferred to the following billing period and added to amounts sold by the customer in that period. In that latter period, differences will either be billed at applicable rates as in (i) above, or transferred to the following billing period depending on whether the differences represent net purchases or net sales, respectively.
- (iii) the customer has supplied excess energy to the Company at the end of twelve (12) months from the time the Customer contracted for this service, excess kWh supplied to the Company will be transferred to the following billing period and added to the amounts sold by the customer in that period.

For demand metered customers in the event:

- (i) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the Customer will be billed for the difference at applicable rates specified in this Service Classification.
- (ii) the amount sold to the Company exceeds the amount purchased from the Company (net sales), the excess on-site production shall be converted to the equivalent value at the applicable energy delivery and energy supply per kWh rates and applied as a direct credit to the customer's current total utility bill. To the extent that the value of monthly production credits exceed all components of the customer's total bill, the remaining credits shall be converted back to their kWh values and carried forward to the succeeding billing period.
- (iii) the customer has supplied excess energy to the Company at the end of twelve (12) months from the time the Customer contracted for this service, excess kWh supplied to the Company will be carried forward to the succeeding billing period.
