SERVICE CLASSIFICATION No. 6C - Continued

Special Provisions – General (continued)

- f. The following Riders may be applied to this Service Classification:
Rider C - Area Development Rate
Rider D - Business Incentive Rate
- g. If at midday Central Park Temperatures are forecast by the National Weather Service for the following day to be equal to or below the Designated Interruption Temperature, the Company will endeavor to provide notification to Customers.
- h. In the event that the Company calls on peaking assets to supplement supply to meet high demand or for isolated distribution system reliability reasons in excess of four hours (other than for LNG plant idling or cooling or for system testing), or if the Company, at its sole discretion, determines that it is warranted to protect the reliability and safety of the system for firm Customers, the Company will interrupt service to Customers on this service classification. The Company will endeavor to provide notification (within two hours) of a scheduled interruption. Upon receipt of such notice, the Customer shall curtail or discontinue use of gas as instructed by the Company (see Special Provisions).

Company Responsibility:

- a. Gas Service will be supplied under this Service Classification only when and to the extent that the Company has capacity available at the time of application sufficient for the service requested and the Company, after supplying Customers taking continuous service will have sufficient gas and capacity available to supply the applicant.
- b. The Company reserves the right to accept only such applications under this Service Classification as will, in the Company's sole judgment, permit it to dispose of the gas it has available for sale without requiring an unreasonable or uneconomic extension of facilities.
- c. Control devices, whether automatic or semi-automatic, will be set at the Designated Temperatures. The Company will notify Customers of the current Designated Temperatures prior to the start of each winter.
- d. The Company will be responsible for the maintenance of Company-owned equipment. This equipment is identified as the meter, the remote switchover and meter reading equipment, and all associated wiring and relays associated with that equipment.
