2. Credits to a Customer Who Supplies Net Energy to the Company

a. For Customers Billed Under Energy-only Rates:

- (i) For residential Customers with micro-CHP generating equipment or fuel cell electric generating equipment, any kWhr of net energy provided to the Company during the billing period will be converted to a monetary credit based on the Company's Avoided Energy Cost for the month. The monetary credit will be applied towards any outstanding customer or other charges in the billing period. Any remaining monetary credit will be carried forward to the succeeding billing period.

- (ii) For all other Customers:

Any kWhr of net energy provided to the Company during the billing period will be applied as a kWhr credit towards any net kWhr used during the succeeding billing period. If the Customer is billed under TOD rates, the kWhr credit will be determined and applied, as appropriate, to each time period.

If the Customer does not participate in Remote Net Metering, any remaining kWhr credit will be carried forward to the succeeding monthly billing period.

If the Customer participates in Remote Net Metering, any kWhr of net energy provided to the Company by the Host Account shall be converted to its equivalent monetary value at the per-kWhr rate applicable to the Host Account's Service Classification and applied, along with any prior period remaining monetary credits, as a direct monetary credit to the Host Account's electric bill for any outstanding energy, customer, or other charges. If the Host Account's monetary credits exceed the outstanding electric charges, all or a portion of the remaining monetary credit, as designated by the Customer in its application for remote net metered service, shall be applied to the Satellite Account(s) in the order in which the Satellite Account(s) are billed until such time that the monetary credit is reduced to zero or all Satellite Account(s) have been credited. If more than one Satellite Account bills on the same day, the monetary credit shall be applied to the Satellite Accounts in order of kWhr usage from highest to lowest. If a monetary credit remains after all Satellite Accounts are credited, the remainder of the monetary credit shall be carried forward to the succeeding billing period on the Host Account.
