Superseding Revision: 0

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) – Continued

#### RIDER Q - POWER FOR JOBS PROGRAM

Applicable to SC 9  
(Subject to the provisions thereof)

##### A. Applicability

To Customers taking service under SC 9, including Customers taking service under Rider Y, and meeting the requirements of this Rider.

Service under this Rider will be available to Customers provided they meet the eligibility requirements set forth below.

1. **Eligibility:** Service under this Rider will only be available to Customers who receive an allocation under the Power for Jobs Program. A Power for Jobs allocation is power and energy made available by NYPA for resale to designated Customers in accordance with Article 6 of the New York State Economic Development Law and Section 1005 of the Public Authorities Law. Such power and energy may be made available either to the Company or, if a Retail Access Customer elects the Energy Service Company Option (the “ESCO Option”) in accordance with Article 6 of the New York State Economic Development Law and Section 1005 of the Public Authorities Law, to the Customer’s ESCO.
2. **Applications for Service:** A Customer who receives a Power for Jobs allocation must have an account established in accordance with this Rate Schedule before taking service under this Rider. PASNY will advise the Company when a Power for Jobs allocation has been approved and provide the Company with a copy of the Allocation Contract. Notification by PASNY to the Company that the Customer has received a Power for Jobs allocation shall constitute the Customer's acceptance of the terms and conditions of this Rider.

Service under this Rider will no longer be available after June 30, 2012.

##### B. Rate

Rates and charges for power and associated energy supplied under the Power for Jobs program, as adjusted in accordance with the Special Provisions of this Rider, will be the sum of the Demand Charge, Reactive Power Demand Charge, Customer Charge, and Additional Delivery Charges, exclusive of the increase in rates and charges, as shown below. Unless the Customer is a Retail Access Customer who has elected the ESCO Option, rates and charges will also include the Energy Charge shown below. The Company will submit to the Staff of the Public Service Commission the calculation of the applicable PASNY charges each month.
