

PSC No: 120 - Electricity
New York State Electric and Gas Corporation
Initial Effective Date: December 1, 2011
Issued in compliance with Order in Case 11-E-0320, dated June 21, 2011

Leaf No. 117.2.4
Revision: 1
Superseding Revision: 0

GENERAL INFORMATION

23. Wind Electric Service Options (Cont'd.) D. Remote Net Metering

Definitions

Host Account: A Customer taking service pursuant to 23.B. Wind Non-Residential Electric Service Option, or 23.C. Farm Wind Electric Generating Service Option, and the customer meter where the wind generation is located and interconnected with the Company's distribution system.

Satellite Accounts: Additional meters designated by the Host Account, with the same name on the account, for to the application of excess net metering credits.

Excess Generation: the electricity (kWh) supplied by the customer to the Corporation during the billing period exceeds the electricity (kWh) supplied by the Corporation to the customer.

Customer Requirements and Eligibility

A customer participating in Wind Non-Residential Electric Service Option or Farm Wind Electric Generating Service Option may designate all or a portion of the excess credit, after application to the Host Account to Satellite Accounts at any property owned or leased by such customer within the same load zone as determined by the Locational Based Market Price. This will be completed on a form when submitting their initial remote net metering application.

Satellite Accounts must be held by the same customer and have an identical billing name, on property owned or leased by such customer. The utility reserves the right to investigate/obtain proof that all designated accounts are held by the customer. Satellite Accounts cannot also participate in: Wind Electric Service Options; or Solar Residential Electric Service Option; or Solar Non-Residential Electric Service Option; or Farm Waste Electric Generating System Option; or Electric Hybrid Generating System; or Micro-combined Heat and Power Service Option; or Fuel Cell Residential Electric Service Option. Satellite Accounts can only have one Host Account.

Should a customer designate a Host or Satellite Account that is participating in Budget Billing, the account(s) will be removed from Budget Billing.

Enrollment and Change Period

After the customer's initial application, the enrollment and change period is from January 1 through January 31. Any changes will be effective with the initial Host Account billing after March 1.

Remote Net Metering customers may submit a change request form annually during the change period to designate additional Satellite Accounts or delete existing active Satellite Accounts. The customer may also change the portion (percentage) of excess to remain at the Host Account once per year.

Calculation and Application of Net Metering Credits

In a month where the Host Account has Excess Generation, the Excess Generation will be converted to the equivalent monetary value at the per kWh rate applicable to the Host Account's service classification.
