COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION
INITIAL EFFECTIVE DATE: 01/01/12

LEAF: 163.5.24
REVISION: 0
SUPERSEDING REVISION:

38. NET METERING FOR CUSTOMER GENERATORS (Cont'd)

E. Residential, Farm Service and Non-Residential Wind Electric Generation (Cont'd)

Billing: (Cont'd)

2. For demand metered customers not subject to hourly pricing provisions (HPP), as specified in the customer's applicable Service Classification, in the event that:
 - (a) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the customer will be billed for the difference at the applicable rates specified in the customer's applicable Service Classification.
 - (b) the amount sold to the Company exceeds the amount purchased from the Company (net sales), the excess on-site production shall be converted to the equivalent value at the applicable energy delivery and energy supply per kWh rates of the customer's applicable Service Classification and applied as a direct credit to the customer's current total utility bill. To the extent that the value of monthly production credits exceed all components of the customer's total bill, the remaining credits shall be converted back to their kWh values and carried forward to the succeeding billing period.
 - (c) For farm service wind customers: the difference in the billing period that ends directly on or after twelve (12) months from the time the customer contracted for this service ("anniversary date") represents net sales to the Company, the Company will pay the customer for this difference at the applicable rate under Service Classification No. 10. The customer may make a one-time election to select an alternate anniversary date to be effective for all subsequent payments, as applicable.
 - (d) For non-residential wind customers: the customer has supplied excess energy to the Company at the end of twelve (12) months from the time the customer contracted for this service, excess kWh supplied to the Company will be carried forward to the succeeding billing period.
3. For demand metered customers subject to hourly pricing provisions (HPP), as specified in the customer's applicable Service Classification, the energy delivery and energy supply sections of the customer bill will be calculated as follows:
 - (a) **Energy Delivery**

Applicable energy delivery per kWh rates will be applied to the customer's net purchases or net sales for the billing period. In the event that:

 - (i) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the customer will be billed for the difference at the applicable rates specified in the customer's applicable Service Classification.
 - (ii) the amount sold to the Company exceeds the amount purchased from the Company (net sales) in a billing period, the customer will be credited at the applicable rates specified in the customer's applicable Service Classification.
