SUPERSEDING REVISION: 0

SERVICE CLASSIFICATION NO. 4

RESIDENTIAL OFF-PEAK CHARGING SERVICE

APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply by the Company or delivery of electric power supply provided by a Retail Supplier pursuant to the Company's Retail Access Program to residential customers for:

Residential purposes in single-family dwellings or individual flats or apartments in multifamily dwellings, and

Use on individually owned farms where service for the farm operation is supplied through the meter serving the residence occupied by the operator and is used solely in connection with agricultural products produced on the premises, and

Use for combined residential and commercial purposes where service is supplied through a single meter and the predominant use is residential, and

Use exclusively in connection with any post or hall owned or leased by a not-for-profit corporation that is a veterans' organization, and

Use exclusively in connection with religious purposes by corporations or associations organized and conducted in good faith for religious purposes, including the operation by such corporation or association of a school, notwithstanding that secular subjects are taught at such school, and

Use exclusively in connection with a community residence, as defined in subdivision twenty-eight, twenty-eight-a or twenty-eight-b of section 1.03 of the mental hygiene law, provided that such residence is operated by a not-for-profit corporation. If supervisory staff is present on premises on a twenty-four hour per day basis, the residence must provide living accommodations for fourteen or fewer residents.

Regardless of the type of service offered, electric service utilized exclusively with such religious purposes or utilized by such veteran's organizations or at such community residences, all as defined above, shall be charged at rates no greater than the rates or charges applicable to residential customers receiving single phase service.
