SERVICE CLASSIFICATION No. 18 - Continued

Rate NCTS-6G (Temperature Controlled Service Transportation - Governmental Agencies) Available to customers who would otherwise qualify for sales service under Service Classification No. 6G - Temperature Controlled Service - Governmental Agencies.

Rate NCTS-6M (Temperature Controlled Service Transportation - Multi-Family Buildings) Available to customers who would otherwise qualify for sales service under Service Classification No. 6M - Temperature Controlled Service - Multi-Family Buildings.

C. CHARACTER OF SERVICE

Interruptible or temperature controlled transportation, as determined by the Character of Service provisions of the sales service classification corresponding to the applicable NCTS rate classification indicated above, which provisions are incorporated herein by reference. Subject to the provisions of this Service Classification, the Company will transport natural gas, owned by the Customer, that meets the quality specifications hereof from the Company's city gate points of receipt as described in the GTOP Manual to a specified delivery point on the Company's existing facilities at the Customer's point of service.

The Company shall control the dispatch of gas received for transportation. Transportation service hereunder for New Non-Core Customers shall be available only upon a Company determination that its existing delivery capacity and facilities are adequate to supply the total estimated gas requirements of its customers receiving service under sales service classifications and to Existing Core Transportation Customers taking service under Service Classification No. 17, and to provide the transportation service required for the term of service hereunder. The Company will not be obligated to expand its facilities or construct new facilities for New Non-Core Customers seeking such service.

Customers taking service under this Service Classification with the exception of power generators can opt to be supplied by Sellers participating in either the Company's Monthly Balancing Program or Daily Balancing Program.

Customers that opt to be supplied by Sellers participating in the Daily Balancing Program must have Automatic Remote Meter equipment installed at their premises as well as a dedicated communication link that will allow the Company to access their meter readings periodically throughout the day. The customer is required to pay for the Automatic Remote Meter and dedicated communication link.

If customers opt to be supplied by Sellers participating in the Daily Balancing Program, customers will be allowed to return to the Monthly Balancing Program or sales service on a best efforts basis. If approved to return by the Company, the customers must remain in the Monthly Balancing Program or sales service for at least twelve months.
