Superseding Revision:

GENERAL RULES

Application Forms – Continued Form G - Application for Net Metering or Standby Service and/or Buy-Back Service- Continued

Section 3. If you request Net Metering (Rider R) for generation located and used at the premises

Please check off the box(es) applicable to the generation for which you are requesting Net Metering service.

For a Residential Customer (SC 1 or SC 7):

☐ wind electric generating equipment with a rated capacity less than or equal to 25 kW
☐ solar electric generating equipment with a rated capacity less than or equal to 25 kW
\square micro-combined heat and power generating equipment with a rated capacity equal to or greater than 1 kW bulless than or equal to 10 kW
☐ fuel cell electric generating equipment with a rated capacity less than or equal to 10 kW
NOTE: Customers with micro-CHP equipment must attach documentation that demonstrates the generation equipment: (a) is expected to produce at least 2,000 kWh annually and (b) has a design total fuel use efficiency of not less than 80%.
For a Non-Residential Customer: (SC 2, SC 8, or SC 9):
☐ solar electric generating equipment with a rated capacity less than or equal to 2,000 kW
☐ wind electric generating equipment with a rated capacity less than or equal to 2,000 kW
For a Customer with electric generating equipment located and used at its farm operation:
☐ farm waste electric generating equipment with a rated capacity less than or equal to 1,000 kW
☐ wind electric generating equipment with a rated capacity less than or equal to 500 kW
NOTE. Not matching wind on color electric concepting equipment council be considered on the come economic or misses

NOTE: Net metering wind or solar electric generating equipment cannot be served on the same account as microcombined heat and power or fuel cell electric generating equipment.
