Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 11/01/2011

Leaf: 265  
Revision: 0  
Superseding Revision:

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) - Continued

#### RIDER S – COMMERCIAL SYSTEM RELIEF PROGRAM - Continued

##### G. Data Review

The Company reserves the right to review records and/or operations of any Customer, Aggregator, or customer of an Aggregator to verify enrollment information and performance associated with a designated Load Relief Period or Test Event called by the Company. Once the Company initiates a data review, all payments will be suspended pending the outcome of the review. The Company will complete its review within 30 days of receipt of all requested data. Any suspended payments will be reinstated if the Company's review of the data results in a finding that the enrollment and performance information are correct.

If the Company determines that a Customer, Aggregator, or customer of an Aggregator failed to cooperate fully and promptly with the review and/or did not fully comply with the provisions of this Rider and/or provided inaccurate data, the Customer or the customer of the Aggregator will be deemed ineligible to participate in the program until the issue is rectified. In addition, the Customer or Aggregator will be required to make prompt repayment to the Company of any payments that were made to such Customer or Aggregator, on behalf of its customer, for the Summer.

##### H. Measurement, Penalties and Adjustment for Non-Performance

###### 1. Measurement

A single CBL Verification Methodology is used to measure both kW and kWh performance on each account. The weather-adjusted CBL methodology is used to measure performance unless the Customer or Aggregator elected the average-day CBL methodology either at the time that application for service was made under this Rider or by May 1 of the current Summer Period, if later.

Demand reductions of an Aggregator will be measured on a portfolio basis by Network by CBL Verification Methodology.
