GENERAL RULES

24. Service Classification Riders (Available on Request) - Continued

RIDER O - CURTAILABLE ELECTRIC SERVICE - Continued

D. Definitions

The following terms are defined for purposes of this Rider only:

“Baseline Level” means the average of the monthly maximum demands for the four consecutive monthly billing periods commencing with the first bill issued in June of the prior Summer Billing Period. For new Customers with no prior Summer Billing Period history, the Baseline Level will be the estimated average maximum monthly demand as agreed upon, in writing, by the Company and the Customer.

“Curtailement” refers to limiting demand on the Company’s system through Load Reduction or delivering demand to the Company’s system through Load Delivery, as specified in the Customer’s contract with the Company and for the time period directed by the Company.

“Firm Service Level” means the kilowatt demand level for service taken from the Company’s system that the Customer contracts not to exceed through Load Reduction during a period of curtailement.

“Load Delivery” means power and energy produced by use of on-site generation and delivered to the Company’s primary distribution feeders during a period of curtailement.

“Load Reduction” means load ordinarily supplied by the Company that is displaced by use of on-site generation and/or reduced by the Customer during a period of curtailement.
