

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 11/01/2011

Leaf: 228  
Revision: 0  
Superseding Revision:

## **GENERAL RULES**

### **24. Service Classification Riders (Available on Request) - Continued**

#### **RIDER O - CURTAILABLE ELECTRIC SERVICE - Continued**

##### **I. Metering**

Each Customer's entire service must be measured by one or more interval meters, and Customers must maintain any associated pilot wiring in good working order. If the Customer's service is not measured by one or more interval meters, provided in connection with other Company service requirements, the Customer shall arrange for the furnishing and installation of interval metering with telecommunications capability and arrange for telecommunications service, at the Customer's expense, net of any available discount or rebate received by the Customer, before service commences under this Rider. Where the Customer contracts for Load Delivery, such delivery must be separately metered.

##### **J. Interconnection and Delivery for Load Delivery Customers**

A Customer who contracts to receive curtailable electric service through Load Delivery must comply with all Common Provisions of SC 11, including the Interconnection Charge and Determination of Demand, including establishment of a contract demand and installation of appropriate metering to measure the energy delivered to the Company's system. Further, such Customer is required to pay charges as would be required of Customers taking service under SC 11. The Customer will pay any costs associated with reinforcing the distribution system and/or adding facilities as may be required for Load Delivery. Load Delivery to the Company's secondary networks is prohibited.
