**Service Classification No. 13
Temperature-Controlled Transportation Service (continued)**

Special Provisions (continued):

7. The Company will endeavor to provide notification to Customers whenever the Central Park Temperatures are forecast by the National Weather Service to be equal to or below the Designated Interruption Temperature.

Company Responsibility:

1. Gas Service will be supplied under this Service Classification only when and to the extent that the Company has capacity available at the time of application sufficient for the service requested and the Company, after supplying Customers taking continuous service, will have sufficient gas and capacity available to supply the applicant.
2. The Company reserves the right to accept only such applications under this Service Classification as will, in the Company's sole judgment, permit it to dispose of the gas it has available for sale without requiring an unreasonable or uneconomic extension of facilities.
3. Control devices, whether automatic or semi-automatic will be set at the Designated Temperatures. The Company will notify customers of the current Designated Temperatures prior to the start of each winter.

Customer Responsibility:

1. It is understood and agreed that as a condition of service hereunder Customers are required to transfer their fuel supply from gas to an alternate fuel source when the first of the Local Outside Temperature or the Central Park Temperature reaches the Designated Interruption Temperature.
2. Unless otherwise expressly authorized by the Company in writing, a supply of alternate fuel sufficient to meet the Customer's fuel consumption needs for a period of ten (10) days is the minimum required standby alternate fuel supply at the beginning of the heating season
