

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 04/01/2012  
Issued in compliance with order dated 03/16/2012 in Case 11-E-0319

Leaf: 252  
Revision: 2  
Superseding Revision: 1

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) – Continued

#### RIDER R - Net Metering for Customer-Generators - Continued

##### G. Charges and Credits - Continued

###### 3. Annual Reconciliation

An Annual Reconciliation will be performed following the first billing period that ends on or after the last day of each calendar year, unless the Customer has residential solar, residential wind, farm wind, or farm waste electric generating equipment and made a one-time election to have the Annual Reconciliation performed in an alternate month.

a. For Customers with residential solar, residential wind, farm wind, or farm waste electric generating equipment, the Company will promptly issue a monetary credit as described below:

- (i) If the Customer does not participate in Remote Net Metering, the monetary credit shall be issued for the value of any kWhr credit remaining after the Annual Reconciliation. The credit will be calculated at the Company's Avoided Energy Cost for the calendar year.

If a credit greater than \$100 remains after issuance of the first bill in the next annual period, the Company will issue a refund. If a credit of less than \$100 remains, it will be applied against future charges, unless the Customer requests a refund.

- (ii) If the Customer participates in Remote Net Metering, any monetary credit remaining on the Host Account after all Satellite Account(s) have been credited (as described in sections G.2.a(ii) and G.2.b of this Rider) shall be converted back to the kWhr equivalent at the per-kWhr rate applicable to the Host Account's Service Classification for the current billing period. The kWhr shall then be converted to a monetary credit based on the Company's Avoided Energy Cost for the calendar year.

If a credit greater than \$100 remains after issuance of the first bill on the Host Account in the next annual period, the Company shall issue a refund. If a credit of less than \$100 remains, it shall be applied against future charges, unless the Customer requests a refund.

b. For Customers with non-residential solar, non-residential wind, or micro-hydro electric generating equipment:

If the Customer does not participate in Remote Net Metering, any excess net energy kWhr credits shall be carried forward to the next year. If the Customer participates in Remote Net Metering, any monetary amounts remaining on the Host Account after all Satellite Accounts have been credited (as described in sections G.2.a(ii) and G.2.b of this Rider) shall be carried forward to the next year.
