38. NET METERING FOR CUSTOMER GENERATORS (Cont'd)**B. Non-Residential Solar Electric, Micro-Hydroelectric or Fuel Cell Generation** (Cont'd)**Billing:**

Customers owning or operating photovoltaic, micro-hydroelectric or fuel cell generating equipment who satisfy all installation and operation requirements will be allowed to combine their energy purchases from and sales to the Company in a billing period.

1. For non-demand metered customers in the event that:

- (a) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the customer will be billed for the difference at the applicable rates specified in the customer's applicable Service Classification.
- (b) the amount sold to the Company exceeds the amount purchased from the Company (net sales),
 - (i) for photovoltaic or micro-hydroelectric generators, the difference will be transferred to the following billing period and added to amounts sold by the customer in that period. In that latter period, differences will either be billed at applicable rates as in (a) above, or transferred to the following billing period depending on whether the differences represent net purchases or net sales, respectively.
 - (ii) for fuel cell generators, the excess on-site production shall be converted to the equivalent value at the applicable rate under Service Classification No. 10 and applied as a direct credit to the customer's current total utility bill. To the extent that the value of this production credit exceeds all components of the customer's total bill, the remaining credit shall be carried forward to the succeeding billing period.
- (c) for photovoltaic or micro-hydroelectric generators, the customer has supplied excess energy to the Company at the end of twelve (12) months from the time the customer contracted for this service, excess kWh supplied to the Company will be transferred to the following billing period and added to the amounts sold by the customer in that period

2. For demand metered customers not subject to hourly pricing provisions (HPP), as specified in the customer's applicable Service Classification, in the event that:

- (a) the amount purchased from the Company exceeds the amount sold to the Company (net purchases) in a billing period, the customer will be billed for the difference at the applicable rates specified in the customer's applicable Service Classification.
- (b) the amount sold to the Company exceeds the amount purchased from the Company (net sales),
 - (i) for photovoltaic or micro-hydroelectric generators the difference will be transferred to the following billing period and added to amounts sold by the customer in that period. In that latter period, differences will either be billed at applicable rates as in (a) above, or transferred to the following billing period depending on whether the differences represent net purchases or net sales, respectively.
