

PSC No: 5 Gas
Corning Natural Gas Corporation
Initial Effective Date: 05/01/2012

Leaf: 84
Revision 2
Superseding Revision:0

"Issued in Compliance with Commission Order "11-G-0280" Issued and
Effective April 20, 2012"

W. Information Applicable to Transportation of Gas Service:
(Cont'd.)

i) The Daily Deficiency Price Index will equal the applicable daily index midpoint price as published in Gas Daily + cost of transportation + variable capacity costs + fuel losses from the index point (DTI South Point to Corning's City Gate). The sum of the items above is then multiplied by the appropriate Index Price Adjustment as shown in the table below.

ii) The Daily Surplus Price Index will equal Applicable daily index midpoint price as published in Gas Daily plus the cost of transportation. The sum of these items would be multiplied by the appropriate Index Price Adjustment as shown in the table below.

iii) Multipliers would be progressively stiffer as the imbalance worsens.

Issued by Michael German, President and C.E.O., Corning, N.Y. 14830
