

PSC NO: 15 ELECTRICITY LEAF: 163.5.19
COMPANY: CENTRAL HUDSON GAS & ELECTRIC CORPORATION REVISION: 3
INITIAL EFFECTIVE DATE: 02/01/13 SUPERSEDING REVISION: 1
Issued in Compliance with Order in C.12-E-0043 dated November 29, 2012

38. NET METERING FOR CUSTOMER GENERATORS (Cont'd)

C. Farm Waste Electric Generation (Cont'd)

Billing: (Cont'd)

3. For demand metered customers subject to hourly pricing provisions (HPP), as specified in the customer's applicable Service Classification,
 - (a) an energy delivery charge/credit will be billed for the net usage/generation in the billing period at the applicable energy delivery kWh rates specified in the customer's applicable Service Classification.
 - (b) an energy supply
 - (i) charge/credit will be billed for customer's taking utility supply service. The appropriate charge/credit will be calculated by netting generation against usage in each hour of a billing period and multiplying the net usage/generation by the applicable hourly rate. Summing the charge/credit calculated for each hour will yield the energy supply amount to be billed for the billing period.
 - (ii) credit will be billed for customer's taking retail access supply service that have net generation in at least one hour of a billing period. The appropriate credit will be calculated by multiplying the net generation, for each hour that such occurs, by the applicable hourly rate. Summing the credit calculated for each hour will yield the energy supply amount to be credited for the billing period.
 - (c) any energy delivery or energy supply credits so determined will be applied as a direct credit to the customer's current total utility bill. To the extent that a credit remains after all components of the customer's bill have been offset, the remaining monetary credit shall be carried forward to the succeeding billing period. A ratio of delivery and supply credits shall be developed using the prior month's credit, if applicable, and the current credit for the purpose of allocating total excess credits carried forward.
 - (d) in the billing period that ends directly on or after twelve (12) months from the time the customer contracted for this service ("anniversary date"), the Company will pay the customer for any remaining supply credit, with the delivery portion reset to zero. The customer may make a one-time election to select an alternate anniversary date to be effective for all subsequent payments, as applicable.

The minimum charge for Farm Waste Electric Generating customers shall be the Customer Charge plus the Basic Demand Charge, as applicable. The Basic Active Demand will be the highest 15-minute integrated kilowatt demand established during the month for which the bill is rendered.
