

PSC NO: 10 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 02/01/2013
Issued in compliance with order dated 11/29/2012 in Case 12-E-0043

Leaf: 251.2
Revision: 0
Superseding Revision:

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R - Net Metering for Customer-Generators - Continued

G. Charges and Credits - Continued

2. Credits to a Customer Who Supplies Net Energy to the Company - Continued

a. For Customers Billed Under Demand Rates:

(ii) For all other Customers - Continued

If the Customer has farm wind or farm waste electric generating equipment and is served under Rider M or would be served under Rider M on a mandatory basis if the Customer purchased supply from the Company, any remaining monetary credit will be carried forward to the succeeding billing period, as described in the Commission's November 29, 2012 Order in Case 12-E-0043, in two separate credits: one for energy supply, and one for the balance of the monetary credit. The energy supply credit will be determined by multiplying the total monetary credit by the ratio of (a) the credit for energy based on NYISO market prices for the prior month's bill and the current bill to (b) the total monetary credit for the prior month's bill and the current bill. This process will be repeated each subsequent billing period to the extent excess credits remain.
