Issued in compliance with order in Case 12-W-0217 dated 08/17/2012

LEAF NO.: 47**REVISION: 0****SUPERSEDING REVISION:**

- .6.1 Alternatively, the customer may have such an inspection performed by a professional engineer (or architect) licensed and registered in New York State who would certify the results of the inspection to the Corporation.
- .6.1.1 Certification by non-corporation inspectors must be to the Corporation's satisfaction.
- .7 Water service may be discontinued by the Corporation for refusal to grant access for the aforementioned purposes,
 - .7.1 where the Corporation has a reasonable basis to believe, from the nature or use of such premises, that a determination should be made as to the existence, non-existence or degree of contamination hazard or
 - .7.2 where the activities there are comparable or similar to those of typical establishments listed in the State Department of Health guidelines as requiring protective devices.
 - .7.3 The customer will not be subject to discontinuance if, upon the refusal to provide access, he or she provides a certification by a professional engineer (or architect) licensed and registered in New York State that a backflow prevention device that meets the requirements of the Corporation and the State Department of Health has been installed; or, in the alternative the customer provides a certification by a professional engineer (or architect) licensed and registered in New York State that such device is unnecessary at the premises. Such certification must be to the satisfaction of the Corporation.
- .8 The Corporation may discontinue service to a customer's premises immediately in the event of an actual or imminent contamination, pending its abatement, where such contamination threatens the health or safety of persons or the Corporation's water supply.

K. Corporation Right to Restrict Water Use

- .1 The Corporation reserves the right to restrict or prohibit the use of water for non-essential purposes at any time the Corporation deems such action necessary in the public interest for the safeguarding and protection of water supply necessary for fire protection, domestic and sanitary requirements of its consumers at large or to comply with any laws or regulations enacted by governmental authorities.
