3. Hours of Operation:

Customer must designate one of the following hours of operation choices for each lamp in service as defined below.

Normal hours of operation provide dusk-to-dawn illumination, photo-electrically controlled, operating approximately 4170 hours per year, or 4183 hours for leap years. The normal operation values contained in Table 2 are based on approximately ½ hour after sunset until approximately ½ hour before sunrise.

Continuous hours of operation provide constant illumination, operating approximately 8760 hours per year, or 8784 hours for leap years. The continuous operation values contained in Table 2 are based on the total number of hours in each month.
