

PSC NO: 214 ELECTRICITY  
NIAGARA MOHAWK POWER CORPORATION  
INITIAL EFFECTIVE DATE: NOVEMBER 16, 2009

LEAF: 64  
REVISION: 4  
SUPERSEDING REVISION: 3

SERVICE CLASSIFICATION NO. 3

C. Additional Company Services

Any service(s) provided by Company not identified under RATE will be charged to the customer separately within the monthly service bill. Such charges will include all labor, transportation, material and applicable overheads.

D. Equipment Audit

An audit of the customer's street lighting system may be conducted by Company, or its designee, and customer's representatives. If additional lamps have been installed without notification to Company, the Company will bill the customer for electrical service connection, monthly pole attachment charges and energy as though the lamps were installed at the time of the last audit.

E. Additional Equipment

Energy for additional lamps will be supplied upon customer's written request. Such written requests will be appended to customer's Form "P" - Application for Service. Written notification will also be required when lamps are to be removed. A revised Schedule "W" will be required. If attachment to distribution poles is desired, customer will also be required to enter into, or modify, an attachment agreement which states the terms and conditions under which attachments may be made. When additional Company facilities are required for lighting service, Company will install such facilities at customer's expense.

F. Termination of Service

Company has the right to remove or to discontinue service to any customer owned equipment, which in the opinion of Company has become unsatisfactory for further service by reason of deterioration, civil commotion, state of war, explosion, fire, storm, flood, lightning, or any other cause reasonably beyond Company's control or by customer request. When such action is necessary, customer shall pay the applicable disconnection charge(s). If service is reinstated, the customer shall pay the applicable reconnection charge(s).

G. Removal of Company Facilities

Upon service termination hereunder or under a superseding service classification or contract, Company shall have the right to remove all Company facilities placed, installed, erected or used pursuant to the supplying of street lighting service. Removal of Company facilities may be at customer's expense. Upon making such removal, Company shall leave the public streets and places affected thereby in the same or as good condition as they were immediately thereto.

H. Service Classification Revision

In the event of changes or revisions of this service classification, customer shall take and pay for service in accordance with the provisions of the revised or superseding service classification. Charges to customer shall be prorated between the superseding and the superseded rate on the basis of the actual number of days in the billing period, with the superseding charges applying to the days of service taken on and after the effective date of such change.

Issued by Thomas B. King, President, Syracuse, NY
