1. Adjustment of Previous Bills
Previous billing period bills for a customer account shall be adjusted, as applicable, using Intra-Account Netting. Intra-Account Netting is defined as the method of computing the appropriate billing amount for a customer in a given bill period by off-setting the cumulative value of facilities discovered to have been underbilled in that bill period against the cumulative value of facilities discovered to have been overbilled in that bill period. If by applying this method, the net result is an overbilling, then a refund or credit will be issued to the customer. If the net result is an underbilling, then the recovery of that amount is subject to the applicable backbilling rules and procedures as set forth in 16 NYCRR, Section 13.9.
2. Ancillary Equipment
