

PSC NO: 220 ELECTRICITY
NIAGARA MOHAWK POWER CORPORATION
INITIAL EFFECTIVE DATE: APRIL 27, 2009

LEAF: 420
REVISION: 0
SUPERSEDING REVISION:

SERVICE CLASSIFICATION NO. 7 (Continued)

APPLICATION FOR SERVICE:

The customer must apply for service by providing the Company with an executed Form G, Application For Electric Standby Service and interconnection agreement, both of which are available from Company representatives. Customers operating an on-site generator unit less than 2 MW may use the Company's Form K - Standardized Contract for Interconnection of New Distributed Generation Units With Capacity of 2 MW or Less Connected in Parallel With Utility Distribution Systems. Customer's in excess of 2 MW must execute an interconnection agreement.

CHARACTER OF SERVICE:

Single or three phase alternating current, approximately 60 hertz, at a single standard delivery voltage with service metered at, or compensated to, that delivery point. Site-specific requirements will be determined by the Company.

BILLING PARAMETERS:

Customers served under this service classification shall be billed according to the following parameters:

Customer Charge - a charge for customer related services.

Incremental Customer Charge - the incremental cost of metering and meter communications equipment necessary to administer this Standby Service.

Standby Contract Customer Charge - a reservation charge for the use of the Company's local distribution system (applicable only to standby service customers that would otherwise be served under S.C. No. 1, S.C. No. 2 Non-demand).

Standby Contract Demand Charge - a reservation charge for the use of the Company's local distribution system.

As Used On-Peak Daily Demand Charge - a daily usage demand charge for the maximum use of the Company's delivery system during on-peak hours (as defined herein).

As Used Daily Energy Charge - an energy based usage charge for use of the Company's delivery system (applicable only to standby service customers that would otherwise be served under S.C. No. 1 and S.C. No. 2 Non-demand).

Electricity Supply Service Charge - a charge for the electricity supply service (Commodity) provided to the customer.

Surcharges and Adjustments - a set of itemized charges for specific adjustments as provided under the otherwise applicable service classification.

RATES:

Rates are established on a calendar month basis and will only be prorated if the billing period is less than 25 days or more than 35 days.
