SERVICE CLASSIFICATION No. 7
Interruptible Transportation Service

Rate Code: 710 - Interruptible Transportation - Category A
710A - Interruptible Transportation - Category A DSRS
711 - Interruptible Transportation - Category C
720 - Interruptible Transportation - Category B
721 - Interruptible Transportation - Category D

A. Availability and Applicability of Service:

Service for the interruptible transportation of Customer-owned natural gas by the Company under this Service Classification is available to a single large volume non-residential Customer than can demonstrate annual natural gas consumption of at least 5,000 DTHM at a single meter. Customers will agree to the following:

- (i) To only use gas delivered by the Company under this Service Classification in the equipment specified on Attachment A to the Interruptible Transportation Service Agreement;
- (ii) To discontinue the use of gas service furnished hereunder upon notice to the Customer by the Company as provided in Special Provision (c);
- (iii) To provide and maintain complete and adequate standby facilities except as may be permitted by the Company in its sole discretion because of the nature of the Customer's operations; and
- (iv) To keep available at all times sufficient standby fuel to maintain continuous plant operation during periods of discontinuance of service except as may be permitted by the Company in its sole discretion because of the nature of the Customer's operations.

Availability of such service shall be subject to the conditions set forth in the Special Provisions and Rule II.7B.

The provision of service under this Service Classification is conditioned on Customer signing an Interruptible Transportation Service Agreement which shall provide the conditions of delivery acceptable to the Company.

All customers taking service under this Service Classification with the exception of power generators have the option to select either the Daily Balancing Transportation Service or the Interim Monthly Balancing Transportation Service. Power generators must select the Daily Balancing Transportation Service option.

B. Character of Service:

Transportation service under this Service Classification shall be subject to reduction or interruption, and is conditioned upon the availability of capacity on Company facilities.

The Company will, upon four hours notice (or one hour notice in the case of system emergencies), require that deliveries of gas be interrupted by any or all Customers taking service under this Service Classification whenever and to the extent that it may be advisable in the Company's judgment. This includes interruptions in order for the Company to obtain exemptions from curtailment under the Company's pipeline suppliers' curtailment plans.

In providing service under this Service Classification, the Company will transport and control the dispatch of the Customer-owned natural gas from the City Gate to the Customer's metered facilities.

Service under this Service Classification shall consist of transportation of natural gas of a Btu content of not less than 950 Btu per cubic foot (dry basis) on a monthly average, supplied at pressures within the limits prescribed by the Public Service Commission.
